

## Publications: R. Govender

- Abdala, F. and Govender, R. The postcranial skeleton of the Lower Jurassic *Tritylodon longaeus* from southern Africa. In preparation.
- Govender, R. and Chinsamy, A. Early Pliocene (5MA) cetacean fauna from Langebaanweg, South Africa. In preparation.
- Govender, R. and Chinsamy, A. Early Pliocene (5 MA) shark – cetacean interaction from Langebaanweg, West coast, South Africa. *Palaios*. Submitted.
- Govender, R., Ackermann, R. R. and Chinsamy, A. An anatomical and landmark morphometric analysis of the phocid seals from Langebaanweg, west coast of South Africa. *Transactions of the Royal Society of South Africa*. Submitted.
- Govender, R. and Yates, A. M. Variation in dicynodont postcranial morphology in the *Cynognathus* Assemblage Zone (subzone B) of South Africa and the implications for Triassic dicynodont taxonomy. *Journal of Palaeontology*. In revision.
- Govender, R., Avery, G. and Chinsamy, A. 2011. Incidence of pathologies in Early Pliocene phocid seals from Langebaanweg, South Africa. *South African Journal of Science* **107** (1/2): 72-77. DOI: 10.4102/sajs.v107i1/2.230.
- Govender, R. and Yates, A.M. 2009. Postcranial material from Namibia and their effect on the relationship of kannemeyeriiforme dicynodonts. *Palaeontologia Africana* **44**: 41–57.
- Govender, R., Hancox, P.J. and Yates, A.M. 2008 . Re-evaluation of the postcranial skeleton of the Triassic dicynodont *Kannemeyeria simocephalus* from the *Cynognathus* Assemblage Zone (subzone B) of South Africa. *Palaeontologia Africana* **43**: 19-37.
- Govender, R. 2008. Comparative analysis of the postcranial skeleton of *Aulacephalodon baini* and '*Aulacephalodon peavoti*'. *South African Journal of Science* **104**: 479-486.
- Govender, R., Rubidge, B.S. and Renaut, A.J. 2002 . The first complete vertebral column of a basal tapinocephalid dinocephalian (Synapsida: Therapsida). *South African Journal of Science* **98**: 391-392.

### Published Conference Abstracts

- Govender, R. and Chinsamy, A. 2011 Early Pliocene (5MA) Shark – Cetacean Interaction at Langebaanweg, West Coast, South Africa. Program and Abstracts – 71<sup>st</sup> SVP Meeting – November 2011: 119.
- Govender, R.; Ackermann, R. R. and Chinsamy, A. 2010. The Pliocene seal population from Langebaanweg, South Africa. Changing Landscapes and Biotas of the Cape West Coast. Conference Proceedings and Abstracts.
- Govender, R. and Chinsamy, A. Evidence of Shark and Cetacean interaction at Langebaanweg, west coast of South Africa. PSSA Conference Abstracts.
- Govender, R. 2006. Two Dicynodont Postcranial Morphotypes from the *Cynognathus* Assemblage Zone (subzone B) of South Africa and their taxonomic Implications. PSSA Conference Abstracts.
- Govender, R. 2004. Postcranial Investigation of African Triassic Dicynodonts. Abstracts Vol. 1: 222. Geoscience Africa, Wits University, Johannesburg 2004,
- Govender, R., Rubidge, B.S. and Renaut, A.J. 2002. Comparative analysis of the postcranial skeleton of *Tapinocaninus pamela* Rubidge. Abstracts. Palaeontological Society of South Africa, Biannual Conference, Bloemfontein.
- Rubidge, B.S., Modesto, S.P. and Govender, R. 2001. Basal therapsid fauna from South Africa – Implications for therapsids origins. Abstracts. *Paleobios* **21** (supplement to No. 2): 111.
- Govender, R. 2000. An initial assessment of the postcranial skeleton of *Tapinocaninus pamela* Rubidge, a basal tapinocephalid dinocephalian. Abstracts. Palaeontological Society of South Africa, Biannual Conference, Pretoria.
